SUMMARY

Creative and detail-oriented Front-End Web Developer with over 6 years of experience building fast, responsive, and user-focused websites. Proficient in HTML, CSS, JavaScript, React, and WordPress, with strong expertise in modern UI/UX implementation and performance optimization. Skilled at translating ideas into clean, functional interfaces that align with brand identity and user needs. Experienced in collaborating with teams to deliver seamless digital experiences while ensuring accessibility, responsiveness, and scalability.

WORK EXPERIENCE

Tech & Media Team Lead, DreamPod Feb 2024 – Present

- Lead the Tech and Media team at DreamPod, overseeing all digital platforms, media content, and web infrastructure.
- Designed and manage the official website, ensuring seamless functionality across workspace, café, event, and private office pages.
- Handle video production, podcast editing, and media coordination — shaping the visual and auditory identity of DreamPod’s brand.
- Maintain hosting environments, manage updates, and optimize for performance, SEO, and accessibility.

Web Developer, Equilibrium Zone Mar 2025 – April 2025

- Managed and maintained company web infrastructure and client learning platforms.
- Worked with the Marketing and Communications team on digital content management and user experience.
- Assisted in automating course purchase and registration flow through Paystack and LearnDash integration.

Web Developer, National Society of Black Engineers Jan 2024 – Sept 2024

- Developed and maintained the official website for the Nigerian arm of the National Society of Black Engineers (NSBE).
- Designed an accessible and responsive interface for showcasing programs, chapters, and membership activities.
- Optimized the site structure for content updates and growth, supporting the organization’s communications and media goals.
